

CLIP
TM

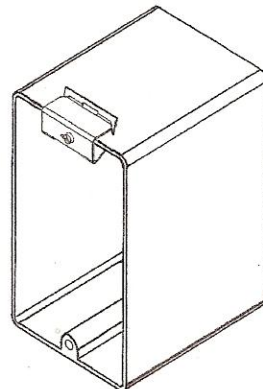

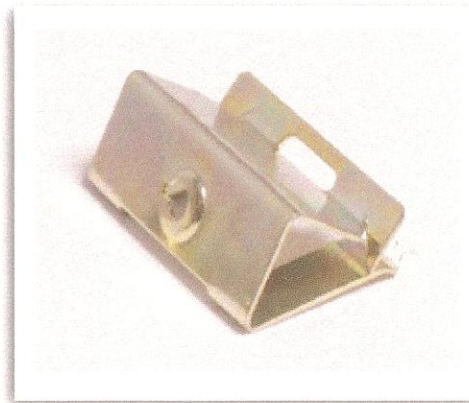

The G-Clip easily and quickly installs onto broken and stripped plastic electrical outlet boxes, without the need for special tools or removal of the outlet box from within the wall.

It provides a sturdy secure attachment point for the switch or outlet device.

Loose and unsecured outlets and switches can cause poor connections, resulting in heat buildup and burnt insulation and potential fire hazard.

Damaged plastic electrical wall boxes allow switches and outlets to protrude from the wall, exposing electrical wires and components to accidental contact by homeowners.

NO FUSS—NO MUSS—NO WALLS TO BUST

G-Clip Product Specs:

UPC Code 804879168577

Walton Electric Stock Number: No. 2GC-B

Color: Gold

Package Type: Blister pack

Quantity : 2 clips per pack

Package Dimensions: Length 3.75" Width 2" Depth 1"

Master Carton: 50 Units / packs 10.5" x 10.5" x 4.5"
